

FOLIO

On the Maintenance of Capital

From 17 to 19 August at the Four Seasons Hotel in Edmonton, a symposium on the "Maintenance of Capital—Financial versus Physical," will take place. Sponsored by the Clarkson Gordon Foundation and held under the auspices of our Faculty of Business Administration and Commerce, the symposium will deal in depth with an accounting topic that in recent years has become more and more significant across the western world and especially in such English-speaking countries as Australia, Canada, the United Kingdom and

the United States.

Essentially, according to the symposium's organizers, whose chairman is former Winspear Professor of Accounting Robert R. Sterling, financial capital maintenance has long been the basis for measuring income and wealth. Now, however, there is a growing support, as evidenced by "Standard Setters" in English-speaking countries, for the maintenance of physical capital at least, in the language of accountants, the "Exposure Draft" stage. The basic difference between the two criteria, financial and

physical capital, is that as a measure of income or wealth the former requires a monetary value attribute whereas the latter requires a physical attribute. The distinction is crucial for it raises the fundamental question of the precise nature of the attribute that is to be accounted for.

The purpose of the symposium, then, is to examine the choice in more depth than, to judge from the scholarly literature, has taken place until now. Given the trend toward adopting physical capital, this is indeed a timely exercise.

Following a reception in the early evening of Monday, 17 August, sessions will begin the next day at 8:30 a.m. Moderated by Ken Lemke, Chairman of our Department of Accounting, the first session will be given over to four papers: "Physical Capital Maintenance: An Analysis" will be presented by Lawrence Revsine and Eric L. Kohler of the Kellogg Graduate School of Management, Northwestern University. "The Case for Financial Capital" will be presented by Bryan Carsberg, Director of Research for the Institute of Chartered Accountants in England and Wales, and by Arthur Andersen of the London School of Economics. "Limitations of Financial Capital Maintenance" will be discussed by David Blazouske of the University of Manitoba, and the parallel "Limitations of Physical Capital" will be considered by Robert Sterling, who is now with the Finance Accounting Standards Board in Stamford, Connecticut.

The papers presented in the first session will be reviewed and discussed by John Butterworth of the University of British Columbia and Alex Milburn, a partner in the Toronto house of Clarkson Gordon.

The second session on Tuesday, 18 August, will be given over to four papers of similar interest and significance. With John Waterhouse of the University's Department of Accounting acting as moderator, Ross Skinner of Clarkson Gordon will lead off with "Accounting for the Impact of Changing Prices—The Canadian Position." T.A. Lee, Head of the Department of Accounting and

Post-Graduate Diploma in English Established

The University's Department of English has at last responded to a need long felt by teachers of English and language arts in the province's schools. It has set up a new Post-Graduate Diploma Program in English. The program, which may be completed quite easily in two years of part-time evening study and attendance at Spring and/or Summer Session, is open to all who are eligible—people who hold a concentration in English or those who have at least two years of experience in the teaching of language arts. Such people must also be able to demonstrate a Grade Point Average of 6.0 during their University careers.

What has a teacher to gain from taking part in the program, scheduled to begin this coming September? Apart from a better

understanding of such matters as "The Theory and Practice of Expository Writing" (English 540), "Forms of English Prose" (English 541), "Forms of English Poetry" (English 542), "Forms of English Drama" (English 543), and knowledge of "The Canadian Literary Tradition" (English 544), a successful participant will be considered to have gained one year's additional university education. This privilege has been approved by the Qualifications Branch of the Alberta Teachers' Association for salary purposes. In addition, the courses may be counted among the number necessary for entry into the MA program in the Department of English.

The idea of instituting the program is an exciting one and, should the program be successful, will no doubt spawn offspring in

other Faculties and Departments. While entry into the program is ultimately controlled by the Faculty of Graduate Studies and Research, anyone interested is urged to contact the program's Director, J.F. Forrest, Department of English, The University of Alberta, Edmonton, Alberta T6G 2E5 (telephone: 432-3258).

An important note: While most schools north of Red Deer have been notified already about the Diploma Program, industrial "action" by postal workers has prevented many would-be participants from registering their interest with Dr. Forrest. It would be greatly appreciated if word could be passed around to likely participants that they should contact Dr. Forrest by whatever means they can as soon as possible. □

Business Method at the University of Edinburg, will present the second paper, "UK Current Cost Accounting and Physical Capital." "Current Cost Accounting and Physical Capital: An Australian Perspective" will be the subject addressed by Ronald Ma, who holds the Chair of Accountancy at the University of New South Wales. The fourth paper of the session, "Accounting for Changing Prices: An Explication and Evaluation of *SFAS No. 33*" will be presented to Roman Weil, Director of the Institute of Professional Accounting at the University of Chicago, and by J. Leslie Livingstone, a partner in the New York firm of Coopers & Lybrand.

The four papers of the second session will be discussed by William Scott, the Clarkson Gordon Distinguished Professor at Queen's University, and by John H. Hanna, Director of the Centre for Accounting Research and Education at the University of Waterloo.

The third session will take place on Wednesday, 19 August. Ross Denham of our Department of Accounting will be the moderator and the session will be given over to two panel dis-

cussions involving the speakers of the two previous sessions.

In sum, "Maintenance of Capital—Financial versus Physical" will be a symposium that is sure to break new ground in the field of accountancy. That the topic is of outstanding interest is clear not merely from the fact that major funding is being provided by the Clarkson Gordon Foundation, but also from the fact that other support has been forthcoming from The University of Alberta, Shell Canada Limited, the Province of Alberta's Treasury Department and Office of the Auditor General, Alberta Government Telephones, Alberta Energy Company Limited, NOVA An Alberta Corporation, Stelco Inc., Texaco Canada Resources Limited, and the TransAlta Utilities Corporation. □

Nicolaas P. Riebeek. 1923-81

Nick Riebeek, who was the machine shop supervisor in Physics, passed away in the early hours of Saturday, 20 June 1981. Nick and his family came to Canada from Holland in 1953. Nick started his career as an Aircraft Instruments mechanic in the Dutch Air Force in 1938. He was taken prisoner by the German occupation forces during the war. After the Second World War, he served until 1948 with the Dutch Air Force in Indonesia. From 1948 to 1953 he worked with the Dutch Government on Aircraft Instruments servicing and repair. His expertise with aircraft instrumentation led to a job with Northwest Industries on arrival

in Canada. He started working for The University of Alberta in 1961. He was a man with specialist expertise and the machine shop in Physics performed outstandingly during his years at the helm. He made every effort to keep the shop equipped with the best equipment even though his wishes were not always granted.

Nick's hobby was horology. His home is graced with several beautifully made clocks that serve as lasting tributes to his skills and craftsmanship.

Nick will be very much missed by his colleagues and friends in the University. □

Chairman of Department of Restorative Dentistry Appointed

The Faculty of Dentistry's new Department of Restorative Dentistry has its first chairman—Kenneth W. Hinkelman. Dr. Hinkelman's initial term of office began 1 July 1981; the date of expiry is 30 June 1986. He came to this University from the University of Pittsburgh where he had been Assistant Department Head and Associate Professor in the Department of Restorative Dentistry, School of Dental Medicine.

The University of Pittsburgh was also home to Dr. Hinkelman as a student and he earned the degrees of BS, DDS, MEd, and PhD there. He was Coordinator of Dental Auxiliaries at Kellogg Community College in Battle Creek, Michigan, from 1970 to 1974, and has taught at his alma mater since 1971. Dr. Hinkelman has been practicing general dentistry since 1967.

In 1975, he developed a computer assisted program for operative dentistry. He has published in various American dental journals and is a member of six dental organizations including

the American Association of Dental Schools, the American Dental Association, and the Pennsylvania Dental Association.

Dr. Hinkelman was elected to membership in the Society of Sigma Xi, the Scientific Research Society of North America, in 1976. □

Positions Vacant

Markers and Demonstrators

The Department of Physics anticipates a need for several part-time sessional markers and laboratory demonstrators during the Winter Session beginning in September.

Persons with a related degree, or senior undergraduates, who would be interested in this type of work should contact the Department of Physics, Room 412, Physics Building for an application form. Phone 432-5286.

Rates of pay will be commensurate with education and experience. Appointments will be made by early September.

Administrative Professional Officer

The Department of Pediatrics, Faculty of Medicine, requires a professional administrator to commence 1 September. The position involves budgets and financial control planning, personnel management and liaison with the University-Hospital administrations, grading and government agencies.

Qualifications preferred are a university degree plus some management and administrative experience particularly in the areas of personnel and financial controls.

Salary will be set according to experience and qualifications. Please send résumé and two references to: Dr. E.E. McCoy, Professor and Chairman of Pediatrics, 4-117 Clinical Sciences Building, University of Alberta, Edmonton, Alberta. T6G 2G3. The University of Alberta is an equal opportunity employer.

Reference Librarians

The University of Alberta Library requires reference librarians in the following areas:

- Business Librarian, Humanities and Social Sciences Library.
- Duties include provision of reference service, effective liaison and collection

development work with the Faculty of Business Administration and Commerce, the giving of instructional and orientation lectures, and on-line searching of commercial data bases.

Romance Languages Librarian, Humanities and Social Sciences Library. Duties include provision of reference service, effective liaison and collection development work with the Department of Romance Languages, the giving of instructional and orientation lectures, and on-line searching of commercial data bases.

Librarian, Government Publications Unit Humanities and Social Sciences Library Duties include the provision of reference service, assisting in management and organization of the collection including coding of documents, and the giving of instructional and orientation lectures.

Reference Librarian, Undergraduate Library Duties include provision of reference service, book selection, the giving of instructional and orientation lectures, and supervision of clerical assistants.

Professional library qualifications required. Preference will be given to candidates with appropriate academic backgrounds and relevant experience.

Salary according to experience and qualifications. Academic status, excellent fringe benefits, removal grant. Applicants should send curriculum vitae, transcripts of academic record, and the names of three references to: Mr. Bruce Peel, Chief Librarian, University of Alberta, Edmonton, Alberta T6G 2J8. The University of Alberta is an equal opportunity employer.

Assistant Coordinator

One temporary full-time position is available in the International Student Office from 17 August to 14 September. Salary: \$1,000. Duties will include picking up new students from the airport, helping to look for housing,

and assisting with arrangements for the orientation program. Must be personable, energetic, willing to work irregular hours, and have access to a car. Apply at Room 225 Athabasca Hall (432-4145) before 31 July.

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, third floor, SUB, telephone 432-5201. Please do not contact the department directly. Positions available as of 24 June 1981.

- Clerk (\$903.29-\$1,080.97)—Office of the Comptroller (2 positions)
- Financial Records Clerk (\$970.59-\$1,161.75)—Office of the Comptroller (2 positions)
- Clerk Typist II (\$970.59-\$1,161.75)—Dean of Arts; Bookstore; Graduate Studies and Research; Personnel Services and Staff Relations; Romance Languages; University Health Services; Physiology; Housing and Food Services (2 positions)
- Clerk Steno II (\$970.59-\$1,161.75)—Surgery; Mechanical Engineering; Elementary Education; Economics
- Library Clerk III (\$1,006.94-\$1,204.82)—Geography
- Senior Clerk (\$1,006.94-\$1,204.82)—Office of the Registrar
- Switch Board Operator (\$1,006.94-\$1,204.82)—Administrative Services; Physical Plant—Telephone Communications
- Clerk Typist III (\$1,080.97-\$1,304.43)—University Press (Trust); Office of the Registrar; Personnel Services and Staff Relations
- Clerk Typist III (\$864.76-\$1,043.56)—English (Part-time, Term)
- Clerk Typist III (\$1,080.97-\$1,304.43)—Economics
- Clerk Steno III (\$1,080.97-\$1,304.43)—University Health Service; English (Part-time, Term); Biochemistry
